ELEMENT4
LUXURY FIREPLACES

Masters of atmosphere

Technical specifications

GAS FIREPLACES

The fireplace is where we come to unwind, indoors or out. A place for quiet moments, shared moments, and time that feels entirely your own. The space around the fire should feel effortless and inviting: a setting where warmth comes naturally and the experience is unmistakable.

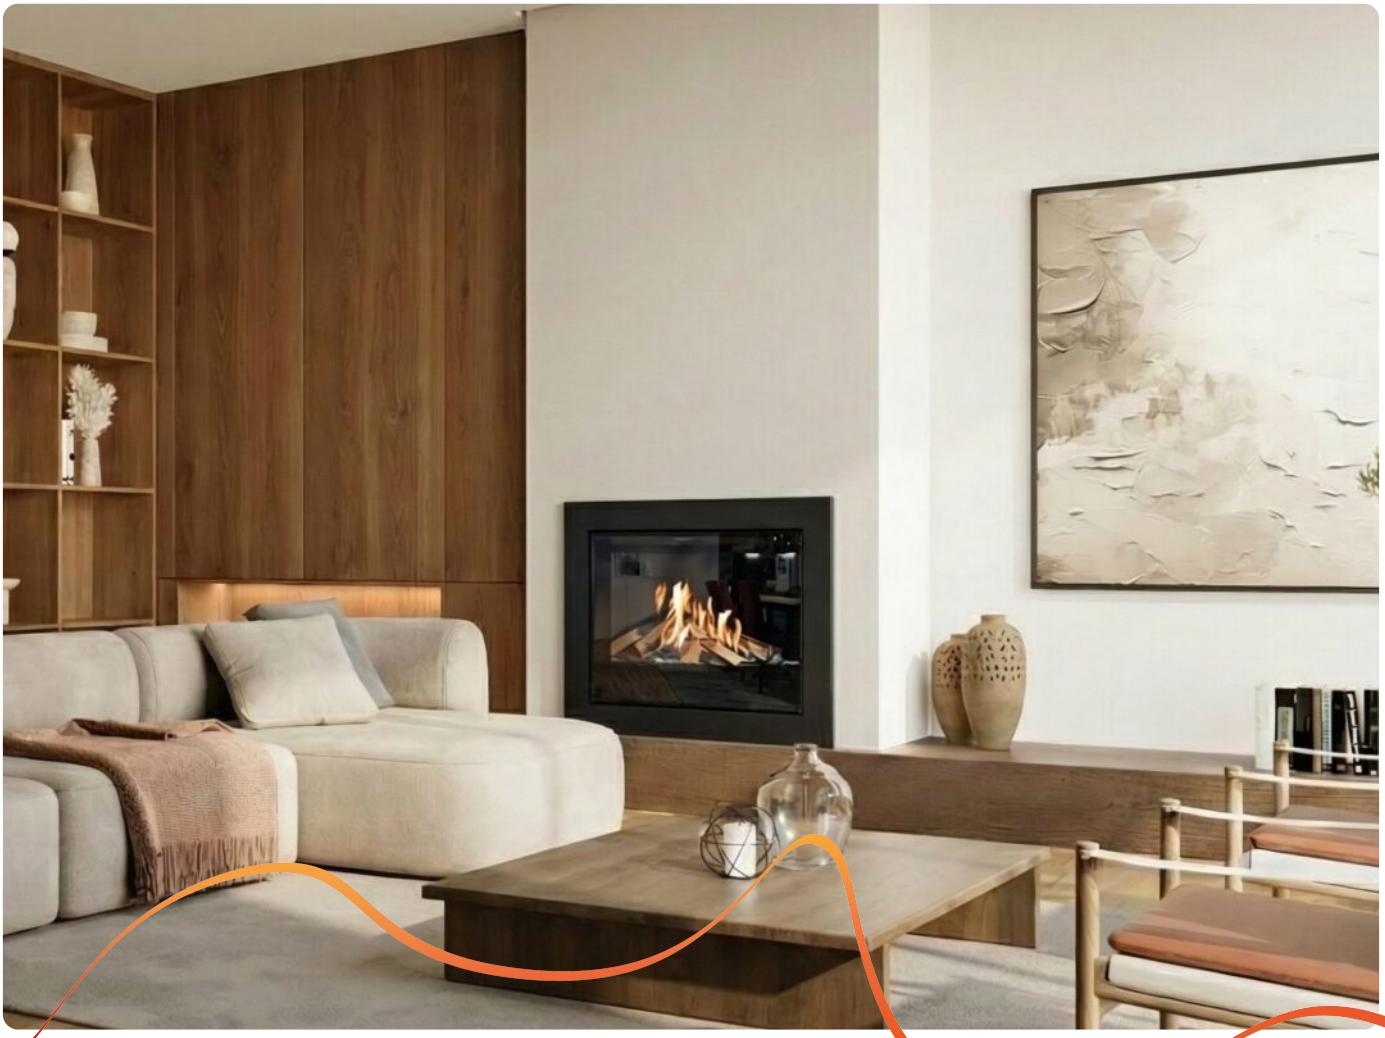

Element4 elevates indoor and outdoor spaces through fire. We create luxury fireplaces that do more than complement a space, they define it. With a versatile collection designed around individual tastes and ambitions, inspired design and impressive solutions come together to create truly distinctive atmospheres.

Element4, masters of atmosphere.

Front

DSE 70

The DSE 70 combines the ambiance of a real fireplace with the sleek appearance of a modern insert fireplace. Thanks to its compact size, the fireplace is ideally suited for renovation and updating existing fireplace situations.

With its high-quality finish, realistic flame image, and smart control, the DSE 70 is designed for those who value atmosphere, comfort, and ease of use. A modern solution that breathes new life into an existing fireplace.

Front

Sky L F

The Sky Large Front is an icon within the Element4 collection. A fireplace that we conceived and designed ourselves with one clear ambition: to experience fire more intensely and to continuously advance design. With its generous size and powerful flame image, the Sky L F makes fire a natural focal point in the interior. Available in gas or bio-ethanol, for an atmosphere that not only impresses today but lasts for years.

Room Divider

Sky L R

The Sky L R is fire as a spatial statement. This iconic room divider model is designed to connect not just a wall, but an entire space with fire. The generous fireplace brings ambiance on three sides and at the same time provides a powerful architectural element. Like every Sky, it is available in gas or bio-ethanol.

Front

Sky M F

The Sky Medium Front proves that an iconic design doesn't have to be large to make a big impression. With its recognizable Sky design and intense fire experience, this fireplace brings character to diverse interiors. A carefully designed combination of fire, form, and simplicity, born from the conviction that a fireplace can be more than just warmth. Available in gas or bio-ethanol.

Front

Sky S F

The Sky Small Front brings the iconic Element4 design in an accessible format. The recognizable silhouette, the intense fire experience, and the strong appearance come together in a fireplace that easily adapts to different interior styles. Designed with the same quirkiness as the larger Sky models, but with a size that offers new possibilities. Available in gas or bio-ethanol.

Room Divider

Sky S R

With the Sky S R, a room divider becomes an atmospheric part of the interior. The fire forms the connection between two spaces and gives both sides their own view of the flames. This creates an open and spacious whole, as can be seen here in the images, without losing the warmth and intimacy of a fireplace. Available in gas or bio-ethanol.

Room Divider

Summum 140 R

The Summum 140 Roomdivider turns fire into a stylish separation between two living spaces. The wide glass panels keep the fire visible from multiple directions, creating a unique combination of openness and intimacy. A distinct choice for modern interiors where the fireplace can be part of the architecture.

Front

Ovation

The Ovation is a stylish freestanding gas fireplace that combines warmth and ambiance in a compact, modern design. The realistic flame effect of the Real Flame Burner and the lifelike logs create the appearance of a real wood fire. Thanks to its freestanding design, the fireplace naturally finds its place in the interior.

Four-sided

Wanders Architect Series

The Architect Series by Element4, designed in collaboration with Marcel Wanders, is much more than a gas fireplace. The four-sided design brings fire to the center of the space and makes it a seamless part of the architecture. With its sleek metal frame, special glass finish, and unique fire display, this fireplace is a distinctive design object. A perfect balance between innovation, craftsmanship, and the magic of fire.

See-through

Tenore 240

The Tenore 240 is an impressive, extra wide tunnel fireplace of no less than 240 cm. Thanks to the see-through design, you can enjoy the same atmospheric fire from two rooms. The fireplace is standard equipped with a realistic wood set; for a sleeker, modern look, you can optionally choose white stones.
